- Ensure optimal data protection with the Data OverwriteSecuritySystem (DOSS). When enabled, it destroys latent images and data from the internal hard drive to prevent document reconstruction.
- Stifle attempts by hackers to steal print job data and passwords transmitted over the LAN with SSL Data Encryption or Wi-Fi Protect Access Support.
- Choose the optional Enhanced Locked Print-NX to store print jobs with encrypted data at the MFP until the user swipes an ID card or enters ID information at the control panel to release the job.

*SP 5210SF and SP 5210SR only.

The adjustable full-color touch screen control panel on the SP 5210SF and SP 5210SR can be tilted to give users greater visibility and to provide easy access to the 1-bin and finisher trays. It even offers animated guidance screens for easy step-by-step instructions.

A USB Type A port is conveniently located in the control panel for quick and easy printing from/scanning to removable media.
